Number 14.

SMALL BLAZE IN A CHINK'S SHOP TO-DAY

Igniting of Gasoline in Cleaning Shop in Sykes Block Nearly Causes Bad Blaze—Very Little Damage Done.

About three o'clock this afternoon the fire alarm was sounded and the brigade called out to a fire which mysteriously started in the Chinaman's cleaning and pressing establishment in the Sykes block.

The fire started from a pair of gasolene which was stationed near the front door of the store and it is supposed that either a match or a cigarette stub was carelessly dropped too near the pump or some of the clothing which was being cleaned. W. T. Lockwood happened to be in front of the store with his car and as he saw the first blaze he gave the alarm and soon had a crowd of willing workers on hand. Fortunately they succeeded in extinguishing the fire before the building caught and only a few articles of clothing were destroyed.

The Chinaman who conducts the business, although very badly scared, managed to make his exit through the flames to the street in safety.

To Fairly Enforce The Service Act

When the people of the Dominion decided to discard the voluntary method of re-enforcing and making good the wastage of the Canadian Divisions from the front they did so fully realizing that the alternative of Selective Conscription would be fairly and firmly carried out. They were strengthened in this belief by the fact that fairness was theoretically more another name for Selective Conscription, as well as from the fact that the government had pledged itself, if it returned, to a just enforcement of legislation. This promise is to be fairly carried out. Questionnaires will be now addressed to all exempted men, who must return them, properly filled out, without loss of time, or forfeit their exemption papers previously granted. Exempted men who have changed their addresses should notify the Registrar of their district without delay, as failure to receive questionnaire will be regarded as equivalent to failure to return it, properly filled in and will invite the same penalty as the general public who have already rendered valuable service in the enforcement of the legislation are invited to continue their endeavours to the end that justice be rendered all those affected.

U. S. To Fix Prices On All Foodstuffs

Determination of a national policy governing meat production, sale and distribution, during the war, which may include virtual price-fixing and definite control or actual federal operation of the big packing houses, has been entrusted by President Wilson to a special commission, headed by leading government officials. This step was taken at the instigation of Food Administrator Hoover, who advised the president that the government's power to protect property, all branches of the cattle industry and that the government's present course is "almost intolerable in estimation from both producer and consumer."

Huns Have Heavy Losses in Offensive

According to prisoners the 26th Division, since the beginning of the offensive, has suffered losses of 70 per cent. The 26th division lost 20 per cent the first day and 40 per cent in an attack on Meuse, March 26th. In the first division, the average strength of the 26th division was reduced to 40 men by March 28th. The fifth division had 50 per cent casualties at sign and additional heavy losses in capturing the remaining positions in the north of the Scarpe river, one regiment of the 26th division lost 54 officers.

Surprise Birthday Party for Mrs. Gordon

On Friday of last week the ladies of the Presbyterian church, gave Mrs. Gordon a genuine surprise by giving to the Manager in a lady on the eve of her birthday. Mrs. A. W. Woodcock, the president of the Ladies' Aid, in a few well chosen words, extended to Mrs. Gordon the hearty congratulations and good wishes of all the ladies of the congregation, and also presented her with a purse of money. Both Mrs. and Mrs. Gordon responded with a few fitting remarks. Dainty refreshments were then served by a number of the ladies which brought a most enjoyable evening to a close.

Bowell Farmer Commits Suicide

Edgar Vinotte, a young unmarried farmer who has been living on his farm west of Bowell, was found dead in his bed last Sunday morning. The circumstances surrounding his death were very mysterious. Although a letter written by the deceased was found in the house, stating that he intended to commit suicide, there was no sign of external injuries on his body, neither could any bottle or package from which poison might have been taken, be found. The remains were taken to Medicine Hat for burial in accordance with the instructions from Coroner Thomas.

Huns Advance Over Piles of Dead Bodies

The Toronto Globe has the following item clanked from London: "Wounded men arriving in London tell amazing stories of the fighting. From the front trenches west of Leclatelle on the 21st know the date and time of the enemy's attack, which was launched exactly at the expected minute. One semi-circular trench contained 100 machine guns and the enemy in dense masses advanced to the right and left all Thursday and Sunday night, falling in hundreds from the entangled machine guns. Over piles of dead and wounded men and horses, the enemy kept pushing on filling the gaps. Our men fought on without food or water, orders having gone out not to touch rationed vegetables or to permit them to get stale. Dawn on Friday disclosed the enemy dead thick on all surrounding ridges."

CHURCH NOTICES

CATHOLIC CHURCH.
Catholic service will be held on the second Sunday of each month until further notice.

THE PRESBYTERIAN CHURCH.
There will be no service on Sunday morning.

Divine worship at 7.30 in the evening, when Rev. J. A. Clayton, P. A. of Medicine Hat, will conduct the service. Sunday school and Bible class at 2.15.

FIRST BAPTIST CHURCH.
Sunday service at 11.15 subject: "The Makers of the Ointment."

Sunday evening, at 7.30; subject: "Sitting in Another's Seat."

Harvest Vaux Sunday school at 2.15; service at 9 p.m.

Tuesday—A picture lecture on home and foreign mission work, with slides, will be given by Rev. C. C. McLaughlin at 9 p.m. All welcome. A collection for missions.

Thursday—Ladies Aid at 2.30 p.m.

CHURCH OF ENGLAND.
Friday—Evangelism and Intercession at 7.45; service at 8.15.

Sunday Holy communion at 8 a.m.; matins at 11. Sunday school at 2.15.

Monday—Annual meeting Junior W. A. in parish hall at 4.15.

Thursday—W. A.

Eighty-two enemy airplanes have been destroyed by British aviators since they have been operating on the front, says a British official communication. The British have lost 10 machines in aerial fighting.

Meeting of All Interested In Chautauqua

We are asked by some of those whose names appear on the contract for the Chautauqua which is to appear here this summer, to announce that a meeting of all interested will be held in the municipal bank rooms over the bank next Tuesday afternoon at 5 o'clock. All interested in this matter, whether they are patrons or not, are asked to attend this meeting. As the time is now drawing near for active work in this connection all interested should make it a special point to attend this meeting.

SCHOOL REPORT

The following is the enrolment and attendance for March, 1918:
Room I—Enrolment 38; daily average, 31; teacher, Miss Sullivan.
Room II—Enrolment 32; daily average, 28; teacher, Miss McCracken.
Room III—Enrolment 31; daily average, 25; teacher, Miss Miller.
Room IV—Enrolment 32; daily average, 28; teacher, Miss McCracken.
Room V—Enrolment 31; daily average, 25; teacher, Miss Smith.
Room VI—Enrolment 30; teacher, Miss Matheson.
Room VII—Enrolment 29; daily average, 25; teacher, Miss Matheson.
Room VIII—Enrolment 31; daily average, 25; teacher, Miss Matheson.
Room IX—Enrolment 17; daily average, 15; teacher, Mr. Klink.
Room X—Enrolment 28; daily average, 25; teacher, Mr. Roberson.

Lloyd-George Wants More Canadians

The Duke of Devonshire, governor-general of Canada, has received the following cablegram from Premier Lloyd George: "I have been inspired during the past week with the constant news of the countless courage with which the Dominion troops have withstood the desperate assaults of vastly more numerous German forces. This battle shows that the empire has reason to be proud of all its sons. Our armies can not have too many of these splendid men. As already announced we propose to ask Parliament for more immediate measures for raising fresh forces."

It would also urge the government of Canada to recruit more Canadian troops in the fullest possible manner and with the smallest possible delay. The struggle is only in its opening stages, and it is our business to see that our armies get the maximum measure of support that we can give them. Let no one think that what even the remotest of our dominions can now do can be too late. Before this campaign is finished the last man may be counted."

Settlers Coming to Alberta From U.S.

A special train of nine cars, carrying settlers for Alberta districts from the central states, passed through this week. The new settlers are mostly accompanied by their families, and another train of freight for them is following. Members of the party said a large number of immigrants for Saskatchewan and Alberta were coming into the country from Nebraska, Kansas and Iowa this summer.

Local Officers May Prosecute For Waste

Medical health officers of municipalities, police officers, aldermen and other parties having to do with the enforcement of law, are now responsible for the enforcement of the law against waste of food which has been passed by the Dominion government on recommendation of the Canada Food Board. Where proceedings in any case in which a fine is imposed were taken by municipal officer, the fine accrues to the municipality. Similarly in cases under that townships officers the fine accrues to the provincial treasury.

ADDITIONAL LOCALS

Mrs. W. Towell is visiting friends in Calgary this week.

Mrs. Tweed, of Regina, is at present visiting her daughter, Mrs. Wardell.

Mrs. and Mrs. T. Howell are moving to Lethbridge where they will reside in future.

None of the teachers from the school here attended the convention at Edmonton.

Remember the Easter sale of work at the Presbyterian church tomorrow (Friday) afternoon.

Miss Jean Gray, of Calgary, spent the Easter vacation here with her parents, Mr. and Mrs. Wm. Gray.

There was no school for the lower rooms at the school this afternoon owing to the overflowing of the cesspool.

Mr. and Mrs. Shillineau leave this week for Calgary where they will reside in future.

Easter Sunday was fittingly observed in all our churches. Appropriate services were preached and music rendered by the choir.

Rev. G. L. Gordon left on this morning's train for Banff, where he will spend a few weeks. Mrs. Gordon will follow later.

Percy Wray, who has been teaching in the Dominion district for the past year, spent the Easter holidays here with his parents, Mr. and Mrs. R. Wray. He left on Monday to attend the convention.

The land office at Brooks has been closed as a result of the ruling of the Department of the Interior to curtail expenses in that department. Those who previously had business at that point now have to go to Calgary.

Orval McKay, son of Mr. and Mrs. Geo. A. McKay, of this town, passed through from the coast last Tuesday on his way to Halifax to embark for overseas service. His parents and members of the family went to Medicine Hat to bid him farewell.

Hand made fancy bread in Canada went off the market on March 15th. The Canada Food Board's new regulations. Standard war flap, meaning four about two per cent coarser than ordinary, may only be used for bread from henceforth.

Mr. and Mrs. W. J. Fairbairn received word last week from their son, Lloyd, stating that he is now in France and awaiting orders to proceed to the front. He mentioned having seen young W. Waters, another son of his boy, and that he was still keeping him.

Your humble servant, the quill penholder for this paper, celebrated his twenty-ninth birthday last Friday. In honor of the occasion the day was proclaimed a public holiday throughout Canada. In order not to have too many holidays coming at once the day was also observed as Good Friday.

It was no fault of the management of the Amuse-U theatre that the Mary Pickford pictures were shown last Monday and Tuesday as advertised. Owing to some misarrangement of plans the films did not arrive as scheduled. These films will be shown next Monday and Tuesday.

A few weeks ago the Rev. F. T. McLaughlin, who is now in England, thinking that on account of the food rationing the parcel might not be sent, sent it by express. The time was hard to obtain under present conditions. His sister writes that the parcel was received in good condition and much enjoyed. However, she states that although the card system is now in use for procuring supplies, it is still suffering any for want of wholesome food supplies.

There was a sudden and marked decrease in the loss to British shipping by submarine in the past week. The admiralty reports that only six British merchantmen, of 1,000 tons or less, were sunk under that enemy's hand in the week ended March 30th.

New Industry Has Promising Prospect

The International Log Bunk & Equipment Company now located here, is already meeting with encouraging prospects. The company has only been on the road a few days but has secured orders for car equipments from some of the largest lumbering and logging companies in the west. The first order has been completed and delivered and now the staff is busy on their second order. With the orders already in hand this plant will be kept busy until July. It is expected that by that time all the necessary machinery will be installed in the plant and the staff ready to proceed with the expected winter's rush.

Quebec Rioters Are Calming Down

Amidst cheers, forty-six men out of the sixty-two detained by the military authorities in connection with the rioting in Quebec on Monday night were liberated on the charge of being in a crowd and causing a disturbance, by Judge Langelier, in the police court. The thirty-five of them must still satisfy Gen. Lesard, officer commanding in Quebec, that they are not subjects of the Military Service Act before they will be given their liberty. They will be detained at the citadel until the information is secured. This may take some time, as the destruction of Registrar Gobeil's office last Friday has disrupted the exemption system to some extent and it will have to be re-adjusted. Eleven men who are charged with being actually connected with the rioting on Monday night, will appear in the police court next week.

Will Reserve Land Near R.R. For Soldiers

An order-in-council making reservation of Dominion lands for returned soldiers under the soldier settlement scheme was approved by the cabinet pursuant to the recommendation of the minister of the interior. It is provided that all vacant and available lands within approximately 15 miles on any side of a railway in districts where there are sufficient available lands, warrant reservation shall be reserved for the purpose of the Soldier Settlement scheme.

A line is drawn along township lines approximately 15 miles from the railway on each side making a belt of 30 miles in width within which all remaining vacant lands are held for returned soldiers.

Only One Language For Alberta Schools

Both sides of the house made their annual declaration in favor of monolingualism in the Alberta schools at the session Wednesday night. It came suddenly, at the close of a long day considering the estimates had ended up in the sharpest debate of the session. "There must be but one language in the schools of Alberta," said Mr. Headley. "There should be but one language in the schools of Canada," said Mr. Headley approved of this action of the government in insisting upon English schools.

British Advance In Mesopotamia

The British column which recently won a striking victory on the front against the Euphrates river, in Mesopotamia, putting out of action the entire Turkish force in the 31st area, advanced to a point 35 miles beyond H. the war office announced. The number of prisoners has been increased to 5,000.

INDIANA GOES DRY.

Indiana became dry from border to border last Tuesday at midnight. The state-wide prohibition law so written that intoxicating liquor may not be manufactured, sold, given away or shipped into the state except for medical and sacramental purposes, took effect at that hour.

About 500 breweries in the state are affected, possibly 12 to 15 distilleries. It is estimated that 2,400 saloons close their doors.

HUNS REOPEN OFFENSIVE ON WEST FRONT

Hurl Large Force Against British and French—Make Slight Gains at Some Points but Lose at Others—French Hold Strong Heights.

According to latest reports received the Germans had commenced another big offensive on the western front. Although the attack is reported as terrific the enemy does not appear to have been even as successful as on the first offensive, which fell far short of its objective. The attack was delivered against the French along a front of nearly nine miles from Grivesnes to the north of the Amiens-Hoya road. They were met with a storm of fire from the French guns, and although the assaults were repeated time after time, they succeeded in gaining only a small section of ground. The French retailed Grivesnes, but the Germans occupied the villages of Mally-Haeneval and Moriel. The text of the statement which is dated today says:

"The battle was resumed this morning with extreme violence in the region of the road between Grivesnes and the north of the Amiens-Hoya road. On a front of about 15 kilometers, from Grivesnes as far as north of the Amiens-Hoya road, the Germans attacked with enormous forces, showing a firm determination to break through our front at any cost. Up to the present we have held the position, but prisoners taken, 11 enemy divisions.

"Our troops with integral courage, related the shock of the assault masses, who were moved down by our artillery fire."

"Despite their efforts, 10 times repeated, the Germans succeeded, at the cost of sanguinary sacrifices, in gaining only a few hundred metres of terrain. Our machine guns and snipers, in the neighboring heights of which we held the position, were attacked with particular violence, remained in the hands of our troops, who, after having broken down all the assaults by a powerful counter-attack, made progress at this point."

Soldiers Land Scheme On Business Lines

In addressing a gathering of returned soldiers, Major Ashton said:

"While the commissioners at the present time were only in a position to deal with the assistance of soldiers who actually owed land, much general information was given, although it was evident that it would be some considerable time before anything like a workable scheme will be evolved as far as the other men are concerned. In the meantime it was pointed out that in any case no loan will be made to soldiers who have not had actual agricultural experience. If any of the returned men wish to take up land before they are eligible to participate in this scheme, they will have to gain experience either in an agricultural school or as farm workers. Mr. Ashton stated that he was not coming before you here behind those eyes, but that what they at present outlined they were prepared to actually carry through. It had been borne in mind, however, that the Soldier's Land Settlement Scheme was absolutely a straight business proposition."

Much Confusion Caused at Boundry

The daylight saving system is now in operation throughout the United States. With Canadian time pieces in no hurry behind those of the United States, the confusion is caused at border towns, especially in connection with the trans-Pacific train enterprises. The Canadian Pacific trains are being held up daily at the border for an hour, to help to remedy the situation. If Canada intends doing anything in the daylight saving line she should do it at once.

WASTING A CRIME.

Canadians have for perhaps a generation been a young nation of wasters. The natural resources of this country have been so bountiful that our people have been inclined to consider them inexhaustible. In the matter of food particularly, millions of dollars are wasted every year. Wheat for example, is wasted on the farm; wasted on the road to the mill in some cases; wasted at the elevator; wasted by reason of the over-refinement of flour to which we have become accustomed; wasted in the homes. Of foodstuffs in general, it is calculated that \$50,000,000 per annum is a conservative estimate of waste that has gone on in Canada in recent years.

Canada is now involved in the greatest war in all time. She is fighting a nation who has organized her resources, men and materials on a most thorough, modern, systematic basis. The wastefulness which goes on in Germany in time of peace is small in comparison to that which characterizes this continent including Canada. In time of war Germany still more strictly conserves and organizes, otherwise she could not withstand practically all the rest of the civilized world in this struggle. In the four years of war the lessons of organization and avoiding waste have been brought home to the British people and to the dominions overseas. "Waste in war time is a crime" said the Canadian Food Controller, and his words have been paralleled by the Food Controllers of Great Britain and the United States.

In Canada this statement has now become literally true. By reason of an order-in-council now in effect as the law of the land, the governor-general, on the recommendation of the minister of Agriculture, and pursuant of the advice of the Canada Food Board, acting on the power conferred upon them by the War Measures Act, has penalized wilful waste of food, due to carelessness or faulty storage. It is now the duty of each municipality within Canada to enforce this regulation within its municipal limits. Where conviction is obtained, in a case of waste of food or food products, resulting from carelessness or from the manner of storage or any other avoidable cause, a fine not exceeding \$1,000 and not less than \$100, or a period of imprisonment not exceeding three months, or both fine and imprisonment will be imposed. This fine shall accrue to the municipality or the province, depending upon the authority of the officer conducting the prosecution. The Canada Food Board is empowered to seize food which is in danger of deterioration from improper storage or other causes, and have it sold. This new law should make it possible to prevent cases of food which has been stored too long having to be thrown out or destroyed.

Chicken salad will be hatched early this year so that the will mature on the fresh green stuffs of the summer season. Store feed is bound to be high this year.

ABOUT INSURANCE.

The fire at the Chingman's greasing shop this afternoon brought out a circumstance which we would draw to the attention of our readers as a warning.

It appears that although this Chingman has been doing business in this state for some time, the attention of the different insurance companies in town was not drawn to the fact by other occupants of the building who are carrying insurance. Now it is well understood that when a person insures his building or his stock in a building, specifications as to the other occupants in the building and the line of business in which each is engaged, are given, and the rate of insurance is struck accordingly. When changes or additions are made in the surroundings those interested should at once notify the agent with whom they are doing business. Otherwise they might find themselves in an awkward position in arriving at an adjustment if a bad fire occurred in a building where such changes had taken place and had not been reported.

We do not say that under such circumstances insurance companies would refuse to make good any losses but it surely would create a loop-hole for argument.

We know of several such cases happening lately and it has only been because of the vigilance of our local insurance agents that matters have been righted.

This is a matter to which those carrying insurance should pay special attention in future.

THAT BEAM.

In discussing the recent riot in Quebec with some of our French-Canadian friends in this locality, one of them remarked: "I regret very much that such an affair took place in Quebec at this time; it's really too bad. If all reports are true I blush for my native province." "But," he said, "we have one consolation; it is that the Quebec affair, beyond the loss of innocent lives, was no worse than the riots in London by English speaking people in Toronto and Calgary." To us this came like a severe jolt on the solar plexus but in all fairness we had to admit the logic of the argument. Now, ever, the old Biblical injunction about "casting the first stone" holds good. We are all too prone to scramble after the mote in our neighbor's eye and forget about the beam in our own.

When that long range Hun gun shot into a French church and killed scores of innocent women and children, it makes one wonder how God likes having his name associated with the Kaiser's Cultured Killing Company.

March lived up to its reputation all right. It will be remembered how lamb like it came in any who had occasion to be out on Sunday evening about six o'clock could readily recognize the likeness to the king of the forest.

There is one thing for which to be thankful in that young blizzard last Sunday. It did not come till evening and so did not interfere with the morning display of Easter millinery.

Little savings in the preparation of meals, all count for your country. Kill Kalsenian in the Kitchen.

The idea that prohibition means less policemen is upset by Alberta Social Service League asking for the appointment of a larger provincial force solely for suppression of the liquor traffic.

Military Service Act

Important Announcement to All EXEMPTED MEN and to the Public Generally

IN dealing with the very large number of claims for exemption brought forward for consideration in connection with Class 1 under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

Exemptions Granted on False Grounds

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

Exempted Men Who Have Changed Address

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulations it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty must be treated as equivalent to failure to return the questionnaire after receipt.

Citizens Urged to Assist

In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements. Further co-operation of this character is invited. The Government regard it as the duty of all loyal citizens, not only to the Country, but to the men at the front, to assist in this way in securing reinforcements on a just and legal basis. Correspondence of this character will be treated as strictly confidential and will receive the fullest investigation.

CHARLES J. DOHERTY,
Minister of Justice.

Correspondence should be directed to J. M. Carson, Esq., Registrar under the Military Service Act, Calgary, Alta.

The court of session rejected the appeal of Bolo Pasha from the sentence of death imposed by court martial for treason. The court also rejected the appeal of Martin Pechers, an accountant, who was tried with Bolo Pasha and sentenced to three years imprisonment.

Sir Robert Borden, in the Canadian Food Bulletin, has appealed for greater production of foodstuffs in Canada. "It is the earnest hope of the Government that every citizen will realize his or her personal, individual duty," says Sir Robert Borden's message. "More voluntary observance will not be enough. The crisis is grave and urgent; beyond possible exaggeration."

Argentine Has Grain For Allies

A report received by the department of trade and commerce from B. S. Webb, acting trade commissioner at Buenos Ayres, gives details of the agreement signed by the English and French governments, under which the Argentine government undertakes to finance certain purchases up to the value of \$200,000,000. The purchasers agree to purchase and export November 1, 1918, 2,500,000 tons of cereals at minimum prices of \$2.50 per one hundred kilos for wheat, \$2.97 per one hundred kilos for oats, and \$3.37 per one hundred kilos for linseed.

The convention is not a contract of sale but rather a loan contract. The Argentine government does not relinquish any grain under, does, it impose any sort of obligation on holders.

FARMERS!

Should Grow Corn

On Summer Fallow

Wheat grown on corn land matures about a week earlier than that grown on summer fallow, it is the general belief. This gives a safer crop, less likely to be damaged by frost, rust, or mildew. The straw is less bulky and rank and stands up better in wet weather. It is easier to cut and shatter to.

There are several limitations in the use of corn for this purpose. The grain must, necessarily be limited to what the farmer can handle properly, and the product of which his live stock can use economically. On most farms twenty to thirty acres would be as much as could be handled properly. Then too, it should not be sown on very dry land. On most well managed grain farms a regular rotation of corn is followed so that a certain area is due for summer fallowing each year. Usually part of this area is comparatively clean with a limited number of weeds, and these not of a very tenacious character. This part should be chosen for the corn, so as to make the weeding easy. It is clean, as easy as possible. The drier parts of the land, and especially if infested by persistent perennial weeds, should be left for a regular bare fallow.

In order that corn may successfully replace the wheat, it must be kept clean, this means thorough preparation of the land before planting and frequent inter-tillage while the corn is growing. If the corn is free of weeds there is no need "to plough it before sowing wheat next year. Best results are obtained when the wheat is sown among the corn stubble in the surface soil which has been cultivated frequently while the corn was growing. The corn should be loosened up in the spring by means of disc or harrow, the harrow is sufficient in heavy soil, but the disc is necessary in heavy clay.

Bulletin Tells How

To Grow Potatoes

When three hundred and thirty-two years ago Sir Walter Raleigh introduced the potato from the continent into Ireland, nobody could have foreseen or imagined the immense part that it would come to play in feeding the people of that island. It was nearly eighty years before the Royal Society of England took up the cultivation of the potato as a cheap food in case of famine. In another eighty years, in 1845, in Scotland brought the potato into existence notice as a cheap article of food. Another thirty years, in 1870, France taking notice of the value of Mr. W. T. Macon, the Dominion Horticulturist, briefly explains all this in a handsome-page booklet, "The Potato," published by the Department of Agriculture, Ottawa, in which is also given complete and comprehensive information as to the cultivation of the potato. Mr. Macon goes fully into his subject, dealing with the preparation of the soil, of the varieties of seedlings, of the manner and method of planting, of protection against insect pests and disease, of the time to plant, of the distance best suited to the various varieties, of the care that should be taken during growth, and of gathering, storing and shipping. Particulars are also given of the results of experiments and tests made at the Experimental Farms and Stations throughout the Dominion. In this prospectus well everything in the shape of information that is of value to potato growers with many exact and interesting illustrations, is to be found. This booklet can be had free on addressing the publication branch, Department of Agriculture, Ottawa.

Allied Troops are

Now Helping Russia

Allied co-operation with the council of soldiers' and workmen's delegates in the defense of Coa and Mourmansk and railway is an established fact, according to dispatches which announce that French and British officers are working with Bolshevik troops as instructors in the use of modern weapons and as supplying British marines and French soldiers returned from the Russian front.

Apparently the Mourmansk soviet originally was suspicious concerning allied efforts of assistance in resisting the encroachments of Finnish Guards upon the Mourmansk district, but Leon Trotsky, president of the revolutionary military committee, authorized the soviet to have the help of the allied forces. The allies are said to be materials required by the Red army already forming to oppose the White Guards, which are extending their operations in the Mourmansk in the German district.

EGGS FOR OUR WOUNDED SOLDIERS IN ANGELINA. Editor: Redcliff Review—Dear Sir: When we read of the scarcity of eggs in England and knowing how they must be appreciated by our wounded, I wish to make an appeal through your paper to farmers and stock raisers in the Redcliff district to contribute to this worthy cause even though individual only sent a few dozen, it all did their duty as an appreciable number would be the result.

The means of collecting would be for all contributors to send them to Redcliff, where they could be sorted and crated and if rubbed over with a considerable time. The work of packing could be undertaken by the Red Cross Society, assisted by volunteers, and as services contributed by the people for the boys of Australia and South Africa are carried free over the railways and overseas, this I am sure could be readily arranged with the C. & N. R. here.

During the month of April everyone that has chickens has a few dozen eggs to spare, and those who have no chickens can buy a few dozen. Especially to those who are exempted from military service I would appeal. You can do your bit by sending a crate of eggs along. To start the eggs a rolling I will give 12 dozen selected. Hoping the matter will be taken up by the Red Cross and I am sure your efforts will be greatly appreciated by our boys who have done so nobly in our cause.

Yours truly,
PHILIP H. WEDDERBURN.

Will Supply Free
Flax Seed to Farmers

Details of the scheme of the British government for raising a large quantity of flax seed was disclosed in Winnipeg. The British government owns about 10,000 bushels of a special kind of flax seed which has been shipped to this country for seed purposes. This seed will be given out free to friendly farmers, who are guaranteed to have clean land on which to sow it, or who are in a position to put it in sufficiently early on spring breaking. Next fall when the crop is threshed the farmer will return to the British government the amount of seed received for the flax. The government will buy the balance of his crop for a fixed price of \$4.50 per bushel. The flax seed grown under these conditions will later be shipped to Ireland and used for seed there.

Lieut.-Col. Wayland, of Winnipeg, represents the British government in connection with the scheme.

Mob in Quebec

Starts a Riot

A serious riot broke out in Quebec last Saturday over the enforcement of the Military Service Act. The riot was started by a crew of gangsters who by their soap box oratory gained a considerable following and made a raid on the military officers' headquarters and some of the newspaper offices. The militia and Dominion police were called out and soon the rioters were under control. During Sunday all was quiet but on Monday evening rioting was renewed. Hardware stores were broken into by the mob in an effort to get fire arms and ammunition and when the militia interfered a free fight ensued, as a result of which three civilians were killed. Two soldiers and four citizens were wounded, and one hundred men were arrested.

The fighting lasted from 8.30 until midnight, and during this time the rioters fired revolvers, hand-guns, and shotguns, and threw stones at the military from doorways and from behind snowbanks. The military, who fired on the disturbers with machine guns were much hampered in locating them by reason of a thick fog which covered the city.

Canadians Help Take

Town of Mourmou

Telegraphing from French headquarters Reuters' correspondent says: "The repulse of the German assault between Lassy and Moudouville was the greatest blow the enemy has suffered since the beginning of the offensive. The attack was conducted in a familiar manner, dense aggregations of men marched up to assault by battalions and literally melted away under the fire of the French 75's. Mourmou was recaptured by French and Canadian soldiers charging together. Reports sent back by the French command say that the enemy suffered terribly and did not gain an inch of ground."

Grain Board Say

\$2.21 For Wheat

As those of grain supervisors for Canada, many of the common wheat, the present price of Canadian wheat is, namely, two quarters and two-thirds of a cent per bushel for No. 1 hard winter wheat, and two quarters and one-half of a cent for No. 2 hard winter wheat. As a result of this, the board has given the full consideration to the necessity of stimulating the production of wheat to the relative prices of coarse grains which have not found their way into the United States.

The board are also of the opinion that this price should be guaranteed, that the guarantee should be given immediately and that, if for any reason such a guarantee cannot be given, the price should be guaranteed. The board also and all regulations connected therewith should be considered and revised.

U. S. Takes Over

Hun Woolen Mills

Six German owned New Jersey woolen mills with a total valuation of more than \$70,000,000 have been taken over by the alien property custodian, who has named governing boards of directors to assume control of them. The earnings of the properties during the war will go into the federal treasury for purchase of Liberty bonds.

The mills taken over were announced by A. Mitchell Palmer, the alien property custodian, as follows: The Passaic Woolen Spinning Mills, the Botany Woolen Mills, the New Jersey Woolen Spinning Mills, the Pettinam & Hauffman Company, the German Mills of Passaic, N. J., and the Garfield Woolen Mills, of Garfield, N. J.

Will Not Treat

Russians as Enemy

The statement made by the Japanese Foreign Minister Matsuoka that the Japanese government is "compelled" to send troops into Siberia there is no intention whatever of treating Russia as an enemy and that Japan will never adopt an aggressive policy such as the Germans are pursuing in European Russia, has excited special attention. The Osaka opposition has criticized the government for not making a similar declaration before when Russia was at a loss to know what to do. It is believed that the Russians assisting the Germans in Siberia should be regarded as enemies.

Vicount Uchida, the Japanese ambassador to Russia, who has arrived in Tokyo, is quoted as saying that he doubts if Germany intends to attack Russia.

Conscription Is

Coming in Ireland

Ireland appears to be the crux of the recruiting problem in the country and it is considered not unlikely that the present crisis may have a good effect toward securing an agreement with the Irish government, that that case, conscription in Ireland may be obtained by consent. It is believed that the view of the cabinet is that Ireland must be conscripted, with or without consent, but that it would be far more preferable if by consent. Hence, hope is entertained that the nation's crisis may have its effect on the deliberations of the Irish convention.

A cablegram received from Gen. Pershing, dated March 31, reported the situation in northern France as improved.

The salience of the Dutch merchantmen in American ports is characterized by the Dutch government in a statement in the Official Gazette as an act of violence which it will oppose with all the energy of its consular and its wounded national feeling.

NOTICE TO CREDITORS.

In the Estate of Peter Muirhead, late of the vicinity of Redcliff, in the Province of Alberta, Rancher, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the late Peter Muirhead, who died on or about the 31st day of December, 1917, are required to file with Messrs. Short & Fraser, Barristers, Medicine Hat, Alberta, solicitors for the administrators of the said estate on or before the 20th day of May, 1918, a full statement of their claims and of any securities held by them duly verified, and that after that date the administrators will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed with the said Short & Fraser.

DATED at Medicine Hat, in the Province of Alberta, this 2nd day of April, 1918.

SHORT & FRASER,
Solicitors for Administrators,
Medicine Hat, Alberta.
Approvers:
G. W. G., J. D. C.

NOTICE!

An matter of the Court of Confirmation of the Tax Enforcement Return of the Town of Redcliff.

Take notice that His Honor Judge Greene, Judge of the District Court of the District of Medicine Hat, has appointed Monday, the 10th day of June, A. D. 1918, at 2 o'clock in the afternoon, at the town Hall, Redcliff, as the time and place for the holding of the Court of Confirmation, to confirm the Tax Enforcement Return of the Town of Redcliff.

Dated at Redcliff this 15th day of March, A. D. 1918.
P. H. COURTNELL,
Secretary-Treasurer of the Town of Redcliff.

VIENNA PAPER WARNS

The Arbitrator Judge, of Vienna, a copy of which has been received at Basel, Switzerland, sound a note of warning to the Teutonic allies as follows: "Do not be deceived. Germany's victory will never force the entrance to accept a peace of violence. If the Germans could take Calais and even force France and Italy to capitulate, there will ever remain the English, hidden in their life, and America protected by the ocean. They can always continue the war by sea. The greatest victory cannot impose a peace of violence on America and England."

Canadians are in

The Big Fight

Cable dispatches received by Sir Robert Borden from Sir Edward Kemp, confirm press dispatches stating that a number of Canadian units have been taking part in the great struggle still in progress on the west front. The definite announcement is made by the overseas press that the militia that cavalry brigades recaptured Moreuil from the Germans in conjunction with French infantry, that the French commanders have expressed their appreciation of the valuable service rendered by Canada's mounted fighting men.

In another cable to the prime minister, Sir Edward Kemp states that Canadian units have taken part in the fighting to the south of Arras where they made some gains.

PLEADS FOR PRODUCTION.

"Every ounce of energy thrown into the work of stimulating the work of food production and achievement of food conservation, particularly at this season, is a vital service to the allied cause. There is need for all Canada can give of cereals, meat, bacon, butter and cheese."

KEEP RABBITS.

One pair of rabbits in one year would increase to 2,484 in twelve months at the rate of six young ones per month, which is a very conservative rate, some young families numbering as high as thirty. This is also a reason for the elimination of surplus male bunnies as soon as they are big enough to eat. Rabbits can live on hay and eat along very cheaply. They provide five pounds of meat when full grown.

Word has been received that the king has appointed Her Royal Highness Princess Patricia of Connaught to be honorary colonel-in-chief of the Princess Patricia's Canadian Light Infantry battalion, otherwise known as the "Princess Pals."

ENCOURAGE RURAL PHONES.

It has been learned from an authorized source that the provincial government is planning to expend something like half a million dollars this year in rural telephone extensions and improvements through the plan for the expenditure has not been completed. This is in addition to the scheme of encouraging the building by the farmers themselves, of cheap temporary telephone lines.

HORSES FOR SALE

Owing to shortage of pasture I will sell the following horses which are worth more money than I am asking for them: One pair of Allios in foal, 4 years old, broke to harness, weight 2,000 pounds; one grey standard bred, 4 years old, broke to addle and harness. This is the makings of a track horse. Apply, M. Slattery, 2 1/2 miles southwest of Bowell.

HORSE FOR SERVICE.

Moucliff Bushyrie (16648) will again stand for service this spring on my farm 2 1/2 miles southwest of Bowell. This horse is a grandson of old Harry Bushyrie, which was sold by public auction at 19 years of age for \$47,500, the greatest price ever paid for a Clydesdale stallion. Raise the good stuff; they bring the coin. M. A. Slattery, Bowell, Alta.

MERCHANTS WIFE ADVISES

REDCIFF WOMEN.

"I had stomach trouble so bad I could eat nothing but toast, fruit and oat water. Everything else went to my head. I was miserable until I tried buckthorn bark, glycerine, and as mixed in Adol-lin. ONE SPONFUL benefited me INSTANTLY. Because Adol-lin empties BOTH large and small intestine it relieves ANY CASE constipation, stops stomach ache and prevents suppuration. It has QUICKLY cured everything I ever sold. C. T. Hall, Drugist."

ITEMS OF LOCAL
INTEREST

Spring is here. Get your garden seeds at Blundell's.

Miss Reid spent the Easter holidays in Aspic Creek visiting her parents.

Miss Lyne, of the C. P. R. station staff, visited her parents, Medicine Hat, over Sunday.

Mrs. John Rutherford and family spent Easter with Mrs. Ireland in Medicine Hat.

For ten cents a week you can get the Calgary Herald or Medicine Hat News every night at Blundell's.

Mr. and Mrs. Wilson, of Swift Current, are spending a few days in town this week, the guests of Mr. and Mrs. R. Black.

Class B men not liable for combatant service overseas, have been called out for railway construction and similar service overseas.

Great Britain is now on rations of meat, butter, margarine and sugar. A scheme of bread rationing for the United Kingdom is being prepared.

Miss McCracken, who has been on the school staff here, resigned her position at the Easter vacation. Miss Broadfoot is at present filling the vacancy.

Mrs. W. T. Oates entertained a number of ladies last Friday afternoon. Progressive whist was played and Mrs. E. Wallis succeeded in making the highest score.

Joseph Flanagan, son of M. Flanagan who until recently was employed in the Rolling Mills here, passed through town yesterday on his way east to join the aviation corps.

The Showground Musical company, which was advertised in our last issue to show here on April 10th, writes the management of the Amuse-U to say they will not be able to keep this engagement owing to some difficulty in transportation.

The local gas company has decided that on and after next meter reading the gas rate will be 20c per thousand feet for domestic consumption. In the past the rate has been 16c per thousand. This will mean little or no difference during the summer as few houses use during the minimum.

On Easter Monday, a year ago, Canadian soldiers, moving mightily to the attack, captured Vinny ridge. This Easter Sunday the soldiers of the Dominion were united with the British troops north of the Scaup, in defense of the southern flanks of the heights, which dominate so much of the vital coal areas of Northern France.

A number of friends of Mr. and Mrs. D. McLachlan gave them a surprise party last Monday evening by going in on them in a body very quietly. After recovering from the surprise the genial couple proceeded to make the visitors welcome and to provide them with all kinds of entertainment. The visitors had a thoroughly enjoyable evening.

Mrs. E. G. Wallis was the hostess at a novel afternoon yesterday. A number of ladies were invited to her home for the occasion and during the afternoon they busied themselves doing Red Cross work. A prize was given for the most neatly hemmed handkerchief and after a careful examination of the work done the judges awarded the prize to Mrs. H. W. Harper.

Columbia Records. Big selection at Blundell's.

Fresh strawberries, lemons and ice cream at Mrs. Wille's lunch rooms for Friday and Saturday.

Dr. Kohler, Minneapolis, spent a few days in town this week on business.

Miss Thelma Coover, of Medicine Hat, spent last week-end in town, the guest of Miss Blanche McKay.

The dance held at Red's hall Easter Monday night under the auspices of the L. O. O. F., was a great success. There was a good crowd in attendance, and all thoroughly enjoyed the event.

Rev. G. R. Hundell, of Medicine Hat, is in town today arranging for the appointment of a committee of men in town to conduct a campaign for the Y. M. C. A.

Mrs. J. H. Gibbs, who has been in the Medicine Hat hospital for the past two weeks suffering from a fractured limb, returned home last Tuesday. Although she is not yet able to get about she is gradually improving.

J. R. Farrow, of Vancouver, B.C., spent a few days in town this week on business. Mr. Farrow owns considerable property in town and while here he was more convinced than ever that his property was worth protecting. To prove this he paid all his taxes up to date.
